

GEOTERMS 13

Read Sections 13.1 and 13.2. Then create an illustrated dictionary of the Geoterms by completing these tasks:

- Create a symbol or an illustration to represent each term.
- Write a definition of each term in your own words.
- Write a sentence that includes the term and the words *mountainous region*.

Geoterm and Symbol	Definition	Sentence
altitudinal zonation		
snow line		
terracing		
tree line		
vertical trade		

READING NOTES 13

Part 1: Physical Characteristics

Read the section of Chapter 13 that corresponds with your assigned elevation zone. Record the elevation range and at least two other physical characteristics of that zone. Illustrate *each* of those two items.

13.6 The Icy High Elevations: Tierra Helada

Elevation range: (_____ – _____) feet above sea level

Physical characteristics:

13.5 The Cool Highlands: Tierra Fría

Elevation range: (_____ – _____) feet above sea level

Physical characteristics:

13.4 The Pleasant Uplands: Tierra Templada

Elevation range: (_____ – _____) feet above sea level

Physical characteristics:

13.3 The Tropical Lowlands: Tierra Caliente

Elevation range: (_____ – _____) feet above sea level

Physical characteristics:

READING NOTES 13

Part 2: Human Adaptations

Find the three graphics that show human adaptations in your assigned elevation zone. Write their letters below. Check your answers with your managing editor (teacher). Then write a short caption that explains how each graphic shows how people have adapted to living in this zone.

Graphic ___ Caption:

Graphic ___ Caption:

PROCESSING 13

The World

1. On the map, circle or highlight a mountainous region you would like to learn more about.
2. Read a newspaper, magazine, or Internet article about how people live in this region. Attach the article to this page.
3. Near this mountainous region on your map, draw and label symbols to represent at least two physical characteristics of the region.
4. Briefly describe the adaptations people have made to life in this region.
5. In what ways is life in this region similar to life in the central Andes? In what ways is it different? What might explain these similarities and differences?
